

Artworks Basic Trial *for Windows*

Try this product for 30 Days.

Installing Artworks Basic - Trial Edition

1. Double click on the file “ArtworksB1810T.exe”. The Self-Extractor will unzip the Artworks Basic files for install into your **C:\Temp** directory and start the install process. When the following screen appears, click **Unzip**.

NOTE: If you see a screen with a **Remove** button at the bottom (indicating a previous install), click **Remove** and follow the on-screen instructions until the **Finish** button. Once you have removed the old version, start again with the instructions above.

2. When the “Artworks - InstallShield Wizard” appears, follow the on-screen instructions. When the customer information screen appears enter your **User Name** and **Organization** (if applicable) in the fields. Please note that there is no **Serial Number** field in the trial edition.
3. When you reach the screen with the **Install** button, click it to install Artworks Basic to the default directory location **C:\Programs\Artellmedia Inc\Artworks**. You will have the option to change the directory.
4. Once the install is complete, click the **Finish** button.

Use the following instructions as an alternate way to “uninstall” any previous version of the Artworks Basic on your computer.

Uninstalling Artworks Basic - Trial Edition

1. Click the windows **Start** menu button (bottom left of screen)
2. Go to the **Settings** folder and select **Control Panel**
3. When the “Control Panel” window appears, double click on **Add or Remove** Programs
4. When “Add or Remove” window appears, scroll and select **Artworks** and click on the **Add/Remove** button (Win 98) or **Remove** button (Win XP)
5. When the dialog appears asking “Are you sure...”, click **Yes** and follow the screen instructions until complete

Please Note:

If you purchase a license to Artworks Basic 1.7 or higher, you can install the licensed version directly over the trial version without uninstalling it first. However to be sure, it's always best to uninstall a previous version. It doesn't take much time.
